**TO WHOMSOEVER IT MAY CONCERN**

We have been working with CATS academy for conducting internal assessments for the last 2 years and we are always surprised by their output of results.

The results were always to the best of assessment internally and proved beyond any doubt the tools used were proper for identifying the selection of candidates.

Atul and his team are always helpful and co-operative and flexible enough for any iterations.

The selection of tools and methodology adopted is appropriate.

I recommend CATS academy strongly for availing their service.

Regards,

BVM Rao
