TO WHOMSOEVER IT MAY CONCERN

We have been working with CATS Academy for conducting internal assessments for the last 4 years and we are always pleasantly surprised by their output of results. The results were always to the best of assessment internally and proved beyond any doubt the tools used were proper for identifying the selection of candidates.

Atul and his team are always helpful and co-operative and flexible enough for any iterations. The selection of tools and methodology adopted is appropriate.

We have recently solicited their services for Virtual assessments and they delivered perfectly. Even though the tools were highly customized, the assessment was spot on and results were shared quickly.

Overall CATS Academy India Pvt. Ltd. has depth and bandwidth to deliver professional assessment services to large multi-location organisation like Shoppers Stop.

I recommend CATS Academy strongly for availing their service.

For Shoppers Stop Ltd.
